Independent Auditors' Report

To the Board of School Directors Methacton School District Eagleville, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Methacton School District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Methacton School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Methacton School District as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note N, the spread of the COVID-19 coronavirus is affecting the United States and global economies and may have an impact on the Methacton School District's operational and financial performance. At this point, the Methacton School District cannot reasonably estimate the impact on its operations or financial results. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 6 through 15, budgetary comparison information on pages 65 and 66, schedules of the school district's proportionate share of the net pension liability on page 67, schedules of the school district's pension contributions on page 68, schedules of the school district's proportionate share of the PSERS net other postemployment benefit plan liability and related ratios on page 69, schedules of the school district's PSERS other postemployment benefit plan contributions on page 70, and the schedules of changes in the total other postemployment benefit plan liability and related ratios on page 71 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Methacton School District's basic financial statements. The supplementary information listed in the table of contents and the schedule of expenditures of federal awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 2, 2020, on our consideration of the Methacton School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Methacton School District's internal control over financial reporting and compliance.

Maillie LLP

Limerick, Pennsylvania November 2, 2020

This discussion and analysis of Methacton School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2020. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the audited financial statements and the related disclosures to enhance their understanding of the District's financial performance.

Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34, *Basic Financial Statements--and Management's Discussion and Analysis--for State and Local Governments*, issued in June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

The Methacton School District (the "District"), as with other school districts had to adjust to COVID-19. The impact of COVID-19 directly affected the method of instruction and associated costs. Additional expenses were incurred that were unbudgeted as we moved into a virtual instruction mode. Countering these costs were the savings by not having to transport the students. Additional impacts short term and long term will be the loss of income associated with the EIT revenue due to unemployment levels, how the District returns to in building instruction and the timing of the return.

The District completed the fiscal year 2019/2020 with liabilities and deferred inflows of resources of \$261,598,720 exceeding assets and deferred outflows of resources of \$171,876,191 by \$89,722,529. In comparison the total net position of the district increased \$10,209,210 year-over-year.

- The governmental activities total assets increased by \$7,638,003 over prior year.
- The District's business-type activities, which are comprised of the Food Service Fund, showed an increase of \$2,169 in total assets from prior year.
- At the end of the current fiscal year, the unassigned, undesignated fund balance of the General Fund was \$7,825,312 compared to the prior year of \$7,830,450, a decrease of \$5,138.
- The Board continues to review the fund balance of the District and strives to maintain the fund balance to within 5-8% of the total budgeted expenditures, or in future years will budget to replenish the fund balance, should it be necessary.

USING THE BASIC FINANCIAL STATEMENTS

This annual report consists of two distinct series of financial statements: the District as a whole, and by fund.

The first two statements are government-wide financial statements (District as a whole). These are the Statement of Net Position, and the Statement of Activities. The statements provide both long-term and short-term information about the District's overall financial status.

The remaining statements (by fund) focus on individual parts of the District's operations in more detail. The Governmental Funds statements focus on how general District services were financed in the short term, as well as what remains for future spending. The Proprietary Fund statements offer short and long term financial information about the activities the District operates as a business. For this District, this is the Food Service Fund. The Fiduciary Fund statements provide information about financial relationships where the District acts solely as a trustee or agent for the benefit of others to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Figure A-1 shows how the required parts of the financial section are arranged and relate to one another.

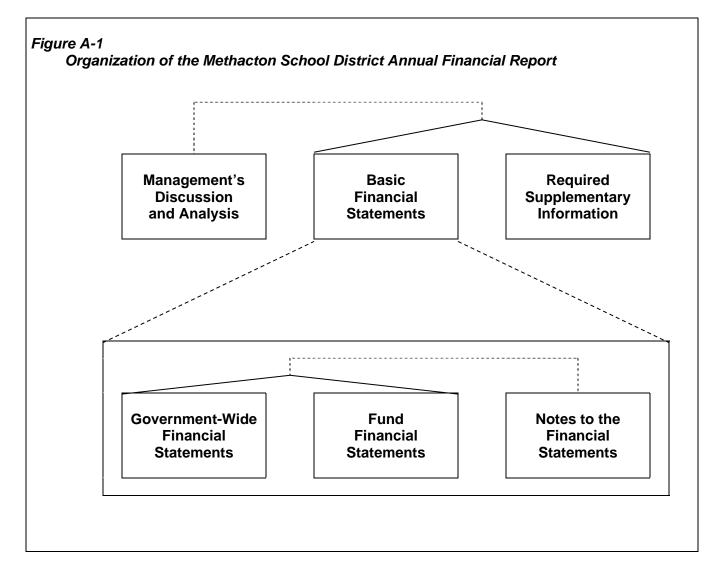

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Figure A-2 Major Features of the Government-Wide and Fund Financial Statements

	Government-Wide			
	Statements	Governmental Funds	Proprietary Fund	Fiduciary Funds
Scope	Entire School District (except Fiduciary Funds)	The activities of the School District that are not proprietary or fiduciary, such as special education and building maintenance	Activities the School District operates similar to private businesses: food services and adult education	Instances in which the School District administers resources on behalf of someone else, such as scholarship programs and student activities
Required financial statements	 Statement of net position Statement of activities 	 Balance sheet Statement of revenues, expenditures and changes in fund balances 	 Statement of net position Statement of revenues, expenses and changes in net position Statement of cash flows 	 Statement of fiduciary net position Statement of changes in fiduciary net position
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long- term liabilities included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; capital assets
Type of inflow/ outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

OVERVIEW OF FINANCIAL STATEMENTS

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year revenues and expenses are accounted for in the statement of activities regardless of when cash is received or disbursed.

The two government-wide statements report the District's net position and how it has changed. Net position, the difference between the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources, is one way to measure the District's financial health or current position.

The government-wide financial statements of the District are divided into two categories:

- **Governmental Activities**: All of the District's basic services are included here, such as instruction, administration and community services. Revenues in the form of property taxes; state and federal subsidies; and state and federal grants finance most of these activities.
- **Business-Type Activities**: The District operates a food service operation and charges fees to staff, students and visitors to help it cover the costs of the food service operation. The food service operation is designed to be self-funding.

Fund Financial Statements

The District's fund financial statements, which begin on page 18, provide detailed information about the most significant individual funds. Some funds are required by state law and by debt requirements.

- **Governmental Funds**: Most of the District's activities are reported in Governmental Funds, which focus on the determination of financial position and change in financial position, not on income determination. Governmental Funds utilize the modified-accrual accounting method. This method of accounting measures cash and all other financial assets that can readily be converted to cash. The Governmental Funds statements provide a detailed short-term view of the District's operations. Governmental Funds information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and Governmental Funds is reconciled in the financial statements.
- **Proprietary Fund**: The Proprietary Fund is used to account for District activities that are similar to private sector business operations. Fee for service charges by the District to customers (external and internal customers), are reported in the Proprietary Fund. Currently the Food Service Fund is the District's sole Proprietary Fund.
- **Fiduciary Funds**: The District is the trustee for some Scholarship and Agency Funds. All of the District's fiduciary activities are reported in a separate Statement of Fiduciary Net Position on page 22. These activities are excluded from the District's other financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The District's total net position was \$(89,722,529) as of June 30, 2020, as a result of the GASB 68 pension and GASB 75 OPEB reporting requirements.

Table A-2 presents the Districts Statement of Changes in Net Position. This schedule uses the financial information from the Statement of Activities found on page 17. The presentation of Table A-2 is similar to an income statement of a private industry organization.

Total revenues from governmental and business-type activities were \$112,713,010 for the fiscal year ended June 30, 2020, versus \$111,799,370 for the prior fiscal year. The main contributors to the increase were local property taxes, earned income tax revenue and operating grants and contributions.

Total expenditures for the current fiscal year were \$101,479,967 versus \$90,353,895 for the prior fiscal year. The major contributors to the increase in expenditures are related to increases in the pension and OPEB liabilities for the current year.

Overall, the District's net position increased \$10.7 million during the current fiscal year.

The Statement of Revenues, Expenses and Changes in Net Position for this Proprietary Fund will further detail the actual results of operations.

THE DISTRICT FUNDS

At June 30, 2020, the District's Governmental Funds reported a combined total fund balance of \$20,690,252.

General Fund

The District budgeted for significant increases in health benefit costs, costs for anticipated needs of special education and future retirement and debt service cost. These areas are a challenge for the District in budgeting. The District is self-insured for health benefits for dental and prescription insurances. This category can fluctuate annually based upon the health of the individual employees within the District. Special education costs are dependent upon the type of student enrolled in the District each year. Enrollment and/or withdrawal of severely handicapped students can cause this expenditure to fluctuate. While the District does prepare a budget with a modest reserve each year for unexpected emergencies, this expenditure is dependent upon actual experience during the fiscal year.

Capital Projects Fund

The District established this fund in prior years for debt funded district-wide capital projects. The District is looking to increase this fund so that projects can be completed and avoid borrowing.

General Fund Budget

During the fiscal year, the Board of School Directors (the "Board") authorizes revisions to the original budget to accommodate differences from the original budget to the actual expenditures of the District. All adjustments are again confirmed at the time the annual audit is accepted, which is after the end of the fiscal year. A statement showing the District's original and final budget amounts compared with amounts actually paid and received is provided on page 63.

The District applies for federal, state and local grants, and these grants cannot always be anticipated in the budgetary process.

Budgeted expenditures and other financing uses also decreased during the fiscal year as more accurate data became available. Transfers between specific categories of expenditures/financing uses occur during the year. The most significant transfers occur from the budget reserve category to specific expenditure areas.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2020, the District had \$110,244,316 invested in a broad range of capital assets net of accumulated depreciation, including land, buildings, furniture and equipment. This amount represents a net increase (including additions, deletions and depreciation) of \$1,782,744 or 1.6% from last year.

Table A-5 reflects the capital assets of both the governmental activities and the business-type activities of the District.

Table A-5 Governmental and Business-Type Activities Capital Assets, Net of Depreciation Years Ended June 30, 2020 and 2019

The District maintains a rating of Aa2 from Moody's for general obligation debt. Additional information on the District's long-term debt can be found in Note F.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET 2020-2021 AND RATES

The District expects the tax base will continue to experience moderate growth. There are numerous housing units in construction or planned to be completed and in the near future, as well as anticipated commercial development. Assessments for the 2019-2020 Fiscal Year were roughly \$21.9 million above the 2018-2019 Fiscal Year values based on the start of each Fiscal Year.

The District continues to develop strategic planning to meet future needs of the District. The Capital Projects Plan provides the District with the facility needs at each location as well as forecasting the financial needs of these efforts and forecasting out the financial projections for the next 5 years to determine the future needs to of the District.

The Budget for the 2020-2021 Fiscal Year is \$111,790,200.77. The Millage increased 1.56%, which was below the ACT 1 Index of 2.6%. This resulted in a millage rate of 30.3781 for the 2020-2021 Fiscal Year.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

Our financial report is designed to provide our citizens, taxpayers, parents, students, investors and creditors with a general overview of the District's finances and to show the Board's accountability for the money it receives. If you have questions about this report or wish to request additional financial information, please contact Timothy Bricker, Director of Business Services at Methacton School District, 1001 Kriebel Mill Road, Eagleville, PA 19403, or (610) 489-5000.

METHACTON SCHOOL DISTRICT RECONCILIATION OF TOTAL GOVERNMENTAL FUNDS BALANCES TO NET POSITION OF GOVERNMENTAL ACTIVITIES

JUNE 30, 2020

TOTAL GOVERNMENTAL FUNDS BALANCES	\$ 20,690,252
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.	110,244,316
Property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures and therefore are reported as unavailable revenue in the funds adjusted for allowance for doubtful accounts.	1,355,386
Deferred charges on refunding are recorded as other financing uses in the Governmental funds, the statement of net position includes these amounts as deferred outflows of resources.	1,701,860
Deferred outflows and inflows of resources related to pensions and OPEB are applicable to future periods and, therefore, are not reported in the funds: Deferred outflows of resources related to pensions and OPEB Deferred inflows of resources related to pensions and OPEB	19,829,640 (10,362,280)
Some liabilities are not due and payable in the current period and therefore are not reported in the funds. Those liabilities consist of:	
Accrued interest Bonds and notes payable Bond premiums and discounts	(649,081) (66,409,545) (3,911,187)
Capital lease obligations Other post-employment benefits Net pension liability Accumulated compensated absences	(1,703,762) (10,475,744) (147,552,000) (2,836,956)

METHACTON SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2020

NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS	\$ 6,493,725
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.	
Capital outlays Depreciation expense	5,755,786 (3,949,209)
The net effect of various miscellaneous transactions involving capital assets (i.e., sales and donations) is to decrease net position.	(23,833)
Revenues on the statement of activities that do not provide current financial resources are not reported as revenues in Governmental Funds.	(184,866)
Repayment of capital lease obligations is an expenditure in the Governmental Funds, but the repayment reduces long-term liabilities in the statement of net position.	160,023
Compensated absences do not require the use of current financial resources, and therefore, are not reported as expenditures in Governmental Funds.	(243,915)
Other post-employment benefits do not require the use of current financial resources, and therefore, are not reported as expenditures in Governmental Funds.	106,424
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the Governmental Funds.	
Pension expense	2,996,000
The issuance of long-term debt provides current financial resources to Governmental Funds, while the repayment of the principal of long-term debt consumes the current financial resources of Governmental Funds. Neither transaction, however, has any affect on net position. Also, Governmental Funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are	
deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(964,222)
Interest is reported as an expenditure when due in the Governmental Funds, but is accrued on outstanding debt on the statement of activities.	 (24,378)

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the Methacton School District (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

School District

The Methacton School District is located in Eagleville, Pennsylvania. This District's tax base consists of the Townships of Lower Providence and Worcester.

The District is a unit established, organized and empowered by the Commonwealth of Pennsylvania for the express purpose of carrying out, on the local level, the Commonwealth's obligation to public education, as established by the constitution of the Commonwealth and by the School Law Code of the same (Article II; Act 150, July 8, 1968).

Board of School Directors

The District is governed by a board of nine School Directors who are residents of the District and who are elected every two years, on a staggered basis, for a four-year term. The Board of School Directors has the power and duty to establish, equip, furnish and maintain a sufficient number of elementary, secondary and other schools necessary to educate every person residing in such district between the ages of 6 and 21 years who may attend.

In order to establish, enlarge, equip, furnish, operate and maintain any schools herein provided, or pay any school indebtedness which the District is required to pay, or pay any indebtedness that may at any time hereafter be created by the District, the Board of School Directors is vested with all the necessary authority and power annually to levy and collect the necessary taxes required and granted by the legislature, in addition to the annual state appropriation, and is vested with all necessary power and authority to comply with and carry out any or all of the provisions of the Public School Code of 1949.

Reporting Entity

The accompanying basic financial statements comply with the provisions of GASB Statement No. 61, *The Financial Reporting Entity: Omnibus*, in that the financial statements include all organizations, activities and functions for which the District is financially accountable. Financial accountability is defined as the appointment of a voting majority of a component unit's board and either (1) the District's ability to impose its will over a component unit or (2) the possibility that the component unit will provide a financial benefit or impose a financial burden on the District. In addition, component units can be organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading. This report presents the activities of the Methacton School District. The District is not a component unit of another reporting entity nor does it have any component units.

The tax collectors are elected officers who collect taxes on behalf of the county, townships, boroughs and the District. The District regards the tax collectors' offices as separate entities and, therefore, does not account for their activity in the financial statements.

Joint Ventures

The District is a participating member of the North Montco Area Vocational-Technical School (NMAVTS). The NMAVTS is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The board of directors of each participating district must approve the NMAVTS's annual operating budget. Each participating district pays a pro-rata share of the NMAVTS's operating costs based on the number of students attending the NMAVTS for each District. The District's share of the NMAVTS's operating costs for 2019-2020 was \$1,358,280.

On dissolution of the North Montco Area Vocational Technical School, the net position of NMAVTS will be shared on a pro-rata basis of each participating district's current market value of taxable real property as certified by the Pennsylvania State Tax Equalization Board. However, the district does not have an equity interest in NMAVTS as defined by GASB Statement No. 14, as amended by GASB No. 61, except a residual interest in net position upon dissolution that should not be reflected in the financial statements. Complete financial statements for the NMAVTS can be obtained from the NMAVTS's administrative office.

Jointly Governed Organizations

The District is a participating member of the Montgomery County Intermediate Unit (MCIU). The MCIU is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee.

The board of directors of each participating district must approve MCIU's annual operating budget. The MCIU is a self-sustaining organization that provides services from fees to participating districts. As such, the District has no on-going financial interest or responsibility in the MCIU. The MCIU contracts with participating districts to supply special education services, computer services, and as a conduit for certain federal programs.

Basis of Presentation and Accounting

Government-Wide Financial Statements - The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for Fiduciary Funds. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the Proprietary Fund financial statements but differs from the manner in which Governmental Funds financial statements are prepared. Governmental Funds financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for Governmental Funds. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function.

Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Financial Statements - Fund financial statements report detailed information about the District. The focus of Governmental and Proprietary Funds financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column (Other Governmental Funds). Fiduciary Funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All Governmental Funds are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments are recorded only when payment is due. The financial statements for Governmental Funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

The Proprietary Funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of the funds are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

The Proprietary Funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the Proprietary Funds' principal ongoing operations. The principal operating revenues of the District's Enterprise Fund are food service charges. Operating expenses of the Enterprise Fund include cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fiduciary Funds are reported using the economic resources measurement focus.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories: governmental, proprietary and fiduciary.

Governmental Funds

General Fund - The General Fund is used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available for any purpose provided it is expended or transferred according to the general laws of Pennsylvania.

Capital Project Funds - These funds are used to account for the proceeds of specific revenue sources that are legally or administratively restricted to expenditures for specified purposes.

Proprietary Funds

Enterprise Fund - The Enterprise Fund (Food Service Fund) is used to account for operations (1) that are financed and operated in a manner similar to private business enterprises--where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or (2) where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Fiduciary Funds

Trust and Agency Funds - Trust and Agency Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Trust Funds are used to account for the resources of the various scholarships whose sole purpose is to provide annual scholarships to particular students as prescribed by donor stipulations.

Agency Funds account for the assets held as an agent for the various student activities and retirees escrow.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition and no restrictions on withdrawal.

Investments

Statutes authorize the School District to invest in: 1) obligations, participations and other instruments of any Federal agency, 2) repurchase agreements with respect to U.S. Treasury bills or obligations, 3) negotiable certificates of deposit, 4) bankers' acceptances, 5) commercial paper, 6) shares of an investment company registered under the Investment Company Act of 1940 whose shares are registered under the Securities Act of 1933, and 7) savings or demand deposits. The specific conditions under which the District may invest in these categories are detailed in Pennsylvania Act No. 53 of 1973, as amended by Pennsylvania Act No. 10 of 2016. Investments are stated at fair value.

Pennsylvania Local Government Investment Trust ("PLGIT") Funds are invested in accordance with Section 440.1 of the School Code. Each school district owns a pro rata share of each investment or deposit which is held in the name of the fund.

The School District has adopted GASB Statements No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, No. 72, Fair Value Measurement and Application and No. 79 Certain External Investment Pools and Pool Participants. In accordance with these Statements, investments in marketable securities with readily determinable fair value and all investments in debt securities are reported at their fair values. Investments in qualifying external investment pools are reported at amortized cost basis.

Fair Value Measurement

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are those that lack significant observable inputs.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 2 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation techniques that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

Short-Term Interfund Receivables/Payables

During the course of operations, transactions may occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the Governmental Funds balance sheet. Short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the statement of net position, except for amounts due between governmental and business-type activities, which, when present, are shown as internal balances.

Inventories and Prepaid Items

Inventory of food and milk in the Food Service Fund consists of supplies purchased and donated foods received from the federal government. Donated foods are valued at their fair market value in accordance with the *Manual of Accounting for Pennsylvania School Systems* - *Food Service Fund*. Food and supplies are carried at cost using the first-in, first-out method. Inventories of Governmental Funds are recorded as expenditures when consumed rather than when purchased. Inventories on government-wide financial statements are presented at the lower of cost or market on a first-in, first-out method and are expensed when used.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

Capital Assets

Capital assets, which include land, site improvements, buildings, building improvements, machinery and equipment, and vehicles are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The District defines capital assets as assets with an estimated useful life in excess of one year and an initial, individual cost equal to or greater than \$5,000. Management has elected to include certain homogeneous asset categories with individual assets that cost more than \$2,500, \$10,000 in the aggregate, as composite groups for financial reporting purposes. Depreciation has been calculated on each class of depreciable property using the straight-line method.

Estimated useful lives are as followings:

	10013
Site improvements Buildings and building improvements Machinery and equipment Vehicles	5-45 10-45 5-45 6-10

Voare

Compensated Absences

Sick Leave

Under the District's various bargaining agreements and plans, professional and eligible support personnel accumulate unused sick days from year to year based on their classification. These accumulated sick days are non-vesting during the employee's tenure. Upon retirement, these employees are eligible for remuneration of unused sick days for the following bargaining units:

- Methacton Education Association \$75 per day up to a maximum 160 days.
- Methacton Educational Support Personnel Association \$50 per day up to a maximum 115 days.
- Teamsters Local 384 \$45 per day up to a maximum of 120 days.
- Methacton Administrators agreement \$95 per day up to a maximum of 185 days.

To be eligible for this benefit, the employee must be eligible to receive superannuation, early retirement or disability pension from the Public School Employees Retirement System (PSERS), and the employee must have at least ten (10) years of service in the Methacton School District, including previous subdivisions. The employee must be retiring from a full-time position and complete full-time service.

The District maintains records of each employee's accumulated sick days that are vested with employees who are eligible to retire and those under the administrators plan.

Vacation Leave

The District maintains records of each employee's accumulated vacation days, and has valued the accumulated vacation days earned at June 30, 2020.

Unavailable and unearned Revenues

General Fund unavailable revenues represent primarily delinquent taxes not collected within 30 days subsequent to the District's year end and grants received but not expended by year end. It is expected that these receivables will be collected and included in revenues of future fiscal years.

Food Service Fund unearned revenues represent food received in its food service operation that is on hand at June 30, 2020. Such revenues will be recognized when the food commodities are used.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or business-type activities columns of the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, Governmental Funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources and payment of principal and interest reported as expenditures. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

Interfund Assets/Liabilities

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". Interfund balances within governmental activities and within business-type activities are eliminated on the government-wide statement of net position.

Net Position

Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. The net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

Deferred Outflows/Inflows of Resources

The District previously implemented GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*.

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District's deferred outflows on the statement on net position consist of deferred charges on debt refundings, net of accumulated amortization and the deferred outflows related to pension and OPEB activity. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition prices. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows related to pension and OPEB activity are reported in the statement of net position and are deferred and recognized as an outflow of resources in the period to which the expense applies.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has two items, which arise only under a modified accrual basis of accounting that qualify for reporting in this category. The first item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. The second item, deferred inflows related to pension and OPEB activity, are reported in the government-wide statement of net position. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose for both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and Proprietary Fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Fund Balance and GASB Statement No. 54

The District previously implemented GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on the District's fund balances more transparent.

The following classifications describe the relative strength of the spending constraints:

- **Nonspendable** Amounts that cannot be spent either because they are not in spendable form or because of legal or contractual constraints. Fund balance types of this category are prepaid expenses.
- **Restricted** This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.
- **Committed** Amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority and do not lapse at year-end. Those committed amounts cannot be used for any other purpose unless the school board removes the specified use by taking the same type of action imposing the commitment.
- **Assigned** Amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund balance may be assigned by the Business Manager. Fund balance of this type includes all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.
- **Unassigned** This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

The restricted fund balance shall be reduced to the extent that the underlying reason for the restriction has been eliminated. Then committed, assigned and unassigned in that order as needed.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE B - CASH AND INVESTMENTS

<u>Cash</u>

Custodial Credit Risk - Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be returned to it. Deposits are insured under Act 72 of the 1971 Session of the Pennsylvania General Assembly whereby financial institutions were granted the authority to secure deposits of public bodies by pledging a pool of assets, as defined in the Act, to cover all public funds deposited in excess of FDIC limits. The School District does not have a deposit policy for custodial credit risk. The carrying value of the District's cash accounts at June 30, 2020, was \$32,449,716.

As of June 30, 2020, \$32,471,109 of the School District's bank balance of \$33,227,693 was exposed to custodial credit risk as follows:

Uninsured and collateralized with securities held by the	
pledging bank's trust department not in the School	
District's name	\$ 16,788,457
Uninsured and uncollateralized with State investment pools	 15,682,652
	\$ 32,471,109

Interest Rate Risk - The District's investment policy limits investment maturities in accordance with the Commonwealth of Pennsylvania School Code as a means of managing its exposure to fair value losses arising from increasing interest rates.

Investments

As of June 30, 2020, the School District had the following investments and maturities:

					Investment Maturities			
Investment Type	 Amortized Cost	_	Fair Value	_	Less than One Year	_	One to Five Years	
State investment pools Certificates of deposit	\$ 32,882 950,000	\$	- -	\$	32,882 950,000	\$	-	
	\$ 982,882	\$_	-	\$	982,882	\$_	-	

NOTE B - CASH AND INVESTMENTS (Continued)

A portion of the School District's investments is in the PSDLAF and PLGIT programs, of which are funds similar to mutual funds. GASB Statement No. 3, Paragraph 69, provides that certain types of cash and investments, such as cash investments in a State Treasurer's investment pool or mutual fund, cannot be assigned a credit risk category because the government does not own specific securities. Therefore, the PSDLAF and PLGIT investments included in these statements will not be assigned a credit risk category. The carrying amount of these investments at June 30, 2020, is \$982,882. These assets maintain a stable net asset value of \$1 per share. PSDLAF is not SEC-registered. All investments are monitored weekly by Standard & Poor's and are subject to an independent audit on an annual basis.

Investments held with qualifying external state investment pools are valued at amortized cost in accordance with GASB Statement No. 79.

Certificates of deposit held by banks of \$950,000 are stated at cost plus interest earned.

Credit Risk - State law permits the School District to invest funds in the following types of investments:

Obligations of (1) the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, (2) the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth, or (3) any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.

The School District's investment policy does not further limit its investment choices. As of June 30, 2020, the School District's investment in the state investment pools was rated AAAm by Standard & Poor's.

Concentration of Credit Risk - The following investments represent greater than 5% of the School District's total investments:

Full Flex Pool (PSDLAF)

\$ 950,000

NOTE C - TAXES - REAL ESTATE AND OTHER

The School Board is authorized by state law to levy property taxes for District operations, capital improvements and debt service. Property taxes are based on assessed valuations of all taxable real property within the District. Taxable real property was assessed at \$2,601,489,739. The tax rate for the year was 30.3781 mills (\$.0303781 per \$1 of assessed valuation). Assessed valuation of property is established by the Board of Assessments, and the elected or appointed tax collectors are responsible for collection.

NOTE C - TAXES - REAL ESTATE AND OTHER (Continued)

Taxes are levied on July 1 and payable in the following periods:

Discount period	July 1 to August 31 - 2% of gross levy
Face period	
Penalty period	November 1 to collection - 10% of gross levy
Lien date	January 1

For government-wide financial statements, the school district, in accordance with GAAP, recognized the delinquent and unpaid taxes receivable reduced by an allowance for uncollectible taxes in the amount of \$197,100 as determined by the administration. A portion of the amount estimated to be collectible, which was measurable and available within 30 days, was recognized as revenue and the balance deferred in the fund financial statements.

NOTE D - INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of June 30, 2020, is as follows:

Due to/from Other Funds

	_ <u>_</u> F	Interfund Receivables	_	Interfund Payables
General Fund Capital Project Fund	\$	375,087 -	\$	16,998 375,087
Proprietary, Food Service Activity Fund		16,988 10		,
	\$	392,085	\$	392,085

These balances resulted from the time lag between the dates that 1) interfund goods and services were provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system, and 3) payments between funds are made. All amounts are expected to be repaid within one year.

Interfund Transfers

As of June 30, 2020, there were no interfund transfers during the year. Transfers are used to 1) move revenues from the fund that statute or budget requires to collect them to the fund that statue or budget requires to expend them, 2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Interest expense for Bonds and Notes for the year ended June 30, 2020 was \$2,363,940.

Bonds and Notes payable at June 30, 2020 consisted of:

On December 3, 2012, the District issued General Obligation Bond Series of 2012A. The purpose of this issue is to currently refund the remaining outstanding principal of the General Obligation Bonds Series 2007A and 2008A and part of the General Obligation Bonds Series 2008AA. The Bond has an original principal amount of \$8,770,000, matures on September 15, 2023, and bears interest from .35% to 2.06%. Interest is paid semi-annually on March 15 and September 15. This Bond was fully refunded with the proceeds of the General Obligation Bond Series of 2019AA and has no balance remaining at June 30, 2020.

On June 27, 2013, The District issued General Obligation Bond Series of 2013. The purpose of this issue is to advance currently refund part of the outstanding principal of the General Obligation Notes Series 1997, 1997C and 2003. The Bond has an original principal amount of \$4,225,000, matures on September 15, 2025, and bears interest from .45% to 2.45%. Interest is paid semi-annually on March 15 and September 15. This Bond was fully refunded with the proceeds of the General Obligation Bond Series of 2019AA and has no balance remaining at June 30, 2020.

On June 27, 2013, The District issued General Obligation Note Series of 2013A. The purpose of this issue is to advance refund part of the outstanding principal of the General Obligation Bonds Series 2010. The Note has an original principal amount of \$2,535,000, matures on September 15, 2025, and bears interest from .45% to 3.125%. Interest is paid semi-annually on March 15 and September 15.

NOTE G - CAPITAL LEASES

Methacton School District has the following capital lease obligations.

On August 12, 2015 The District entered into a lease-purchase agreement with Bank of America for an energy performance contract. The present value of the lease payments is \$2,428,935. The lease provides for seventeen annual payments ranging from \$136,026 to \$341,446. The implicit interest rate is 2.49%.

The assets acquired through capital lease are as follows:

Machinery and equipment Accumulated depreciation	\$ 2,729,139 (797,511)
	\$ 1,931,628

The equipment acquired under capital leases is included in machinery and equipment in Note E.

NOTE G - CAPITAL LEASES (Continued)

Principal and interest payments for the succeeding fiscal years are as follows:

Interest expense for the capital leases for the year ended June 30, 2020, was \$46,345.

NOTE H - PENSION PLAN

Summary of Significant Accounting Policies

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information About the Pension Plan

Plan Description - PSERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.pa.gov.

METHACTON SCHOOL DISTRICT NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2020

NOTE H - PENSION PLAN (Continued)

Benefits Provided - PSERS provides retirement, disability and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least one year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum three years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending on membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Contributions

Members Contributions

- Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class T-C) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.
- Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.
- Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with services rendered on or after January 1, 2002.

 Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.3% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and the Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

Employer Contributions

The School District's contractually required contribution rate for the fiscal year ended June 30, 2020, was 33.36% of covered payroll, actuarially determined as an amount that, when combined with employee contributions is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the plan from the School District were \$14,650,000 for the year ended June 30, 2020.

<u>Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2020, the School District reported a liability of \$147,552,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2018 to June 30, 2019. The School District's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2020, the School District's proportion was 0.3154%, which was a decrease of 0.0008% from its proportion measured as of June 30, 2019.

For the year ended June 30, 2020, the School District recognized pension expense of \$12,046,000. At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	_	Deferred Outflows of Resources	-	Deferred Inflows of Resources
Difference between expected and actual				
experience	\$	813,000	\$	4,891,000
Changes in assumptions		1,411,000		-
Net difference between projected and actual				
investment earnings		-		423,000
Changes in proportions		588,000		3,375,000
Difference between employer contributions				
and proportionate share of total contributions		1,129,000		-
Contributions subsequent to the measurement				
date		15,029,000		-
	_		-	
	\$	18,970,000	\$	8,689,000

\$15,029,000 reported as deferred outflows of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the new pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	
2021	\$ (184,063)
2022	(4,084,873)
2023	(1,202,063)
2024	722,999
	\$ (4,748,000)

Actuarial Assumptions - The total pension liability as of June 30, 2019, was determined by rolling forward the System's total pension liability as of the June 30, 2018 actuarial valuation to June 30, 2019, using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method Entry Age Normal Level % of pay.
- Investment return 7.25%, includes inflation at 2.75%

- Salary growth Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study that was conducted for the five year period ending June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global public equity	20.0%	5.6%
Fixed income	36.0%	1.9%
Commodities	8.0%	2.7%
Absolute return	10.0%	3.4%
Risk parity	10.0%	4.1%
Infrastructure/MLPs	8.0%	5.5%
Real estate	10.0%	4.1%
Alternative investments	15.0%	7.4%
Cash	3.0%	0.3%
Financing (LIBOR)	-20.0%	0.7%
	100.0%	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2019.

Discount Rate - The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate:

		Current				
		1%		Discount		1%
		Decrease		Rate		Increase
	_	6.25%	_	7.25%	_	8.25%
School District's proportionate share of the net pension liability	\$	183,793,000	\$	147,552,000	\$	116,866,000
share of the net pension hability	Ψ_	100,700,000	Ψ_	147,002,000	Ψ_	110,000,000

Pension Plan Fiduciary Net Position - Detailed information about PSERS's fiduciary net position is available in the PSERS Comprehensive Annual Financial Report which can be found on the System's website at www.psers.pa.gov.

NOTE I - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)-PSERS

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the Health Insurance Premium Assistance Program

Health Insurance Premium Assistance Program

The System provides Premium Assistance which, is a governmental cost sharing, multiple-employer other postemployment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2019 there were no assumed future benefit increases to participating eligible retirees.

Premium Assistance Eligibility Criteria

Retirees of the System can participate in the Premium Assistance program if they satisfy the following criteria:

- Have 24 ½ or more years of service, or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the HOP or employer-sponsored health insurance program.

Pension Plan Description

PSERS is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.pa.gov.

Benefits Provided

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2019 there were no assumed future benefit increases to participating eligible retirees.

Contributions

The Districts' contractually required contribution rate for the fiscal year ended June 30, 2020 was 0.84% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the OPEB plan from the District were \$374,000 for the year ended June 30, 2020.

<u>OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred</u> <u>Inflows of Resources Related to OPEB</u>

At June 30, 2020, the District reported a liability of \$6,708,000 For its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the System's total OPEB liability as of June 30, 2018 to June 30, 2019. The District's proportion of the net OPEB liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2020, the District's proportion was 0.3154% percent, which was a decrease of 0.0008% from its proportion measured as of June 30, 2019.

For the year ended June 30, 2020, the District recognized OPEB expense of \$280,000. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources		_	Deferred Inflows of Resources
Difference between expected and actual				
experience	\$	38,000		-
Changes in assumptions		222,000	\$	199,000
Net difference between projected and actual				
investment earnings		11,000		-
Changes in proportions		15,000		224,000
Difference between employer contributions				
and proportionate share of total contributions		4,000		450
Contributions subsequent to the measurement				
date		374,000		-
	\$	664,000	\$	423,450

\$374,000 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30,	
2021 2022 2023 2024 Thereafter	\$ (11,840) (11,840) (11,840) (13,840) (84,090)
	\$ (133,450)

Actuarial Assumptions

The Total OPEB Liability as of June 30, 2019, was determined by rolling forward the System's Total OPEB Liability as of June 30, 2018 to June 30, 2019 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method Entry Age Normal level % of pay.
- Investment return 2.79% S&P 20 Year Municipal Bond Rate.
- Salary growth Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.
- Participation rate.
- Eligible retirees will elect to participate Pre age 65 at 50%.
- Eligible retirees will elect to participate Post age 65 at 70%.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study that was performed for the five year the period ending June 30, 2015.

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2016 determined the employer contribution rate for fiscal year 2019.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.
- Mortality rates and retirement ages were based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 for both males and females for healthy annuitants and for dependent beneficiaries. For disabled annuitants, the RP-2000 Combined Disabled Tables with age set back 7 years for males and 3 years for females for disabled annuitants. (A unisex table based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 years for both genders assuming the population consists of 25% males and 75% females is used to determine actuarial equivalent benefits.)

Investments consist primarily of short-term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

Asset Class	Target _Allocation_	Long-Term Expected Real Rate of Return
Cash	13.2%	0.20%
US Core Fixed Income	83.1%	1.00%
Non-US Developed Fixed	3.7%	0.00%
	100.0%	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2019.

Discount Rate

The discount rate used to measure the Total OPEB Liability was 2.79%. Under the plan's funding policy, contributions are structured for short term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short-term funding policy, the OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 2.79% which represents the S&P 20 year Municipal Bond Rate at June 30, 2019, was applied to all projected benefit payments to measure the total OPEB liability.

Sensitivity of the System Net OPEB Liability to Change in Healthcare Cost Trend Rates

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2019, retirees Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2019, 93,339 retirees were receiving the maximum amount allowed of \$1,200 per year. As of June 30, 2019, 780 members were receiving less than the maximum amount allowed of \$1,200 per year. The actual number of retirees receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on Healthcare Cost Trends as depicted below.

The following presents the System net OPEB liability for June 30, 2019, calculated using current Healthcare cost trends as well as what the System net OPEB liability would be if it health cost trends were 1-percentage point lower or 1-percentage point higher than the current rate:

	_	1% Decrease	_	Current Trend Rate	1% Increase
System net OPEB liability	\$_	6,707,000	\$_	6,708,000	\$ 6,709,000

Sensitivity of the Net OPEB Liability to Change in the Discount Rate

The following presents the net OPEB liability, calculated using the discount rate of 2.79%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (1.79%) or 1-percentage-point higher (3.79%) than the current rate:

	1% Decrease 1.79%	Current Discount Rate 2.79%	1% Increase 3.79%	
School District's proportionate share of the net OPEB liability	\$7,642,000	\$ <u>6,708,000</u>	\$ <u> </u>	

NOTE J - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS-SINGLE EMPLOYER PLAN

Plan Description

The School administers a single-employer defined benefit healthcare plan. The plan provides medical insurance benefits to eligible retirees and their spouses. The Board of School Directors has the authority to establish and amend benefit provisions through the collective bargaining process with members of the professional and support staff, an agreement with administrative employees and individual employment contracts with certain employees. The plan does not issue any financial report and is not included in the report of any public employee retirement system or any other entity.

Plan Membership

At June 30, 2020, plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	27
Inactive plan members entitled to but not yet receiving benefits	-
Active plan members	601
	628

Funding Policy and Funding Status

The plan is an unfunded plan with no assets accumulated in a trust. Contributions to the plan are equal to benefit payments. For the year ending June 30, 2020 benefit payments paid as they came due were \$200,394.

Benefits Provided

The plan provides the following benefits:

Administrators

For administrators who retired before July 1, 2005 with at least 10 years of service, shall be eligible for up to 87% reimbursement of premiums for medical, prescription drug, dental, and vision insurance for up to 12 years. For administrators who retire after July 1, 2005 who are eligible for PSERS retirement with at least 10 years of service with the School District shall be eligible for premium sharing payments for medical, prescription drug, dental, and vision insurance. Payments are made into a health premiums account and vary from \$10,000 to \$20,000 per year, depending on year of retirement and the member is responsible for payment of the full premium. Payments are made for two to five years.

After the District ceases payments as noted above, members are responsible for the full premium and are eligible to retain the coverage for the life of the member and spouse.

NOTE J - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS-SINGLE EMPLOYER PLAN (Continued)

Teachers

For teachers who retired before July 1, 2005 with at least 10 years of service, shall be eligible for up to 87% reimbursement of premiums for medical, prescription drug, dental, and vision insurance for up to 12 years. For teachers who retire after July 1, 2005 who are eligible for PSERS retirement with at least 10 years of service with the School District shall be eligible for premium sharing payments for medical, prescription drug, dental, and vision insurance. Payments are made into a health premiums account and vary from \$10,000 to \$20,000 per year, depending on year of retirement and the member is responsible for payment of the full premium. Payments are made for two to five years.

After the District ceases payments as noted above, members are responsible for the full premium and are eligible to retain the coverage for the life of the member and spouse.

Support Staff

For support staff who retire and are eligible for PSERS retirement with at least 10 years of service with the School District shall be eligible for medical, prescription drug, dental, and vision insurance. Members are responsible for the full premium and are eligible to retain the coverage for the life of the member and spouse.

Assumptions

The following assumptions and actuarial methods and calculation were used:

Interest Rate – 3.36%, based on S&P Municipal Bond 20 Year High Grade Rate Index at July 1, 2019.

Salary - An assumption for salary increases is used only for spreading contributions over future pay under the entry age normal cost method. For this purpose, salary increases are composed of a 2.5% cost of living adjustment, 1% real wage growth, and for teachers and administrators a merit increase which varies from 2.75% to 0%.

Health Care Cost Trend Rate - 6.0% in 2018, and 5.5% in 2019 through 2021. Rates gradually decrease from 5.4% in 2022 to 3.8% in 2075 and later based on the Society of Actuaries Long-Run Medical Cost Trend Model.

NOTE J - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS-SINGLE EMPLOYER PLAN (Continued)

Withdrawal - Rates of withdrawal vary by age, gender and years of service. Sample rates for employees with more than 10 years of service are shown below. Rates for new employees start at 22.9% for both men and women and decrease with age and service.

Age	Male Rate	Female Rate	Age	Male Rate	Female Rate
25	2.57%	5.02%	45	1.37%	1.65%
30	2.57%	4.02%	50	1.92%	2.06%
35	1.50%	2.85%	55	3.38%	3.11%
40	1.34%	1.60%	60	5.57%	6.40%

Mortality - Separate rates are assumed preretirement and postretirement using the rates assumed in the PSERS defined benefit pension plan actuarial valuation.

Disability - No disability was assumed.

Retirement - Assumed retirement rates are based on PSERS plan experience and vary by age, service and gender.

Percent of Eligible Retirees Electing Coverage in Plan - 50% of teachers and administrators and 10% of the support staff are assumed to elect coverage. Upon Medicare eligibility, spouses are not assumed to continue coverage.

Percent Married at Retirement - 35% of employees are assumed to be married and have a spouse covered by the plan at retirement.

Spouse Age - Wives are assumed to be two years younger than their husbands.

Retiree Contributions - Retiree Contributions are assumed to increase at the same rate as the Health Care Cost Trend Rate.

Actuarial Value of Assets - Equal to the Market Value of Assets.

Actuarial Cost Method - Entry Age Normal - Under the Entry Age Normal Cost Method, the Normal Cost is the present value of benefits allocated to the year following the valuation date. Benefits are allocated on a level basis over the earnings of an individual between the date of hire and the assumed retirement age. The Accrued Liability as of the valuation date is the excess of the present value of future benefits over the present value of future Normal Cost. The Unfunded Accrued Liability is the excess of the Accrued Liability over the Actuarial Value of Assets. Actuarial gains and losses serve to reduce or increase the Unfunded Accrued Liability.

Changes in Assumptions - In the 2019 actuarial valuation, the discount rate changed from 2.98% to 3.36%. The trend assumption was updated. Assumptions for salary, mortality, withdrawal and retirement were updated based on new PSERS assumptions.

NOTE J - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS-SINGLE EMPLOYER PLAN (Continued)

Changes in the Total OPEB Liability

NOTE J - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS-SINGLE EMPLOYER PLAN (Continued)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB - For the year ended June 30, 2020, the School recognized OPEB expense of \$183,216. At June 30, 2020, the School reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	_	Deferred Outflows of Resources	-	Deferred Inflows of Resources
Differences between expected and actual experience Changes of assumptions Contributions subsequent to the measurement date	\$	- - 195,640	\$	384,163 865,667 -
	\$_	195,640	\$	1,249,830

\$195,640 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30,	
2021	\$ (133,716)
2022	(133,716)
2023	(133,716)
2024	(133,716)
2025	(133,716)
Thereafter	(581,250)
	\$ (1,249,830)

NOTE K - OPERATING LEASES

There District entered into operating leases for computer equipment and vehicles. The total expense under these operating leases for the June 30, 2020 year is \$453,885. The lease payments for future years are as follows:

Year Ending June 30,	-	Lease Payment
2021	\$	531,855
2022		427,508
2023	-	189,493
	\$ _	1,148,856

NOTE L - COMMITMENTS AND CONTINGENCIES

Claims or Litigation

The District is currently a party, as both plaintiff and defendant, to various claims and litigation arising in the normal course of operations. Certain tax assessment appeals are ongoing. The amount of loss contingency, due to the nature of tax assessment appeals, is not determinable.

The District has various commitments under long-term construction contracts totaling approximately \$4,186,341 as of June 30, 2020.

NOTE M - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Significant losses are covered by commercial insurance. There were no significant reduction in insurance coverages for the fiscal year June 30, 2020.

The District is a participant in the Bucks and Montgomery County Schools Healthcare Consortium, which is a pooled trust fund for the purpose of providing health and related benefits up to \$200,000 per participant. The school pays the Consortium a monthly contribution as determined by the trustees. The pool is self-sustaining through member premiums. The District reinsured through a commercial company for claims in excess of the amount covered by the pool.

NOTE N - RISK AND UNCERTAINTIES

Risks and Uncertainties Related to the COVID-19 Pandemic

As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen which are likely to have an effect on daily operations. Financial impact could occur though such potential impact is unknown at this time.

NOTE O - SUBSEQUENT EVENT

Bond Issuance

In July 2020, the School District issued General Obligation Bonds, Series of 2020, in the amount of \$2,255,000. Proceeds of the bonds were used to refund General Obligation Notes, Series of 2013. In July 2020, the School District issued General Obligation Notes, Series of 2020, in the amount of \$5,205,000. Proceeds of the notes were used to refund General Obligation Bonds, Series of 2016. In July 2020, the School District issued General Obligation, design, series A of 2020, in the amount of \$15,815,000 for the acquisition, design, construction, furnishing and any other expenses related to various School District facilities, other capital project needs, and to pay the costs of issuing the bonds.

NOTE A - BUDGETARY INFORMATION

The District follows the following procedures in establishing the budgetary data reflected in the financial statements:

- Prior to May 31, the School Board submits a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them for the General Fund.
- The budget is presented at the Methacton School District public board meeting to obtain taxpayer comments.
- Prior to June 30, the budget is legally enacted through passage of an ordinance.
- Legal budgetary control is maintained by the School Board at the departmental level. Transfers between departments, whether between funds or within a fund, or revisions that alter the total revenues and expenditures of any fund must be approved by the School Board.
- Budgetary data are included in the District's management information system and are employed as a management control device during the year.
- Budgets for the General Fund are adopted substantially on the modified accrual basis of accounting, which is consistent with generally accepted accounting principles.

For the year ended June 30, 2020, the District overspent from budgeted amounts in the general fund for the following line items:

•	Pupil personnel services	\$611,459
•	Administration services	\$376,795
•	Pupil health services	\$32,896

• Community services \$441

These overages were made up with funds from other line items that were underspent during the year.

NOTES TO SCHEDULES

No assets are accumulated in a trust to pay benefits related to this plan.

Changes in assumptions: In the 2019 actuarial valuation, the discount rate changed from 2.98% to 3.36%. The trend assumption was updated. It is now assumed that 50% of teachers and administrators will elect coverage, and 35% of retirees have spouse covered by the plan at retirement.

Changes in benefit terms: In the 2018 actuarial valuation, the retiree benefits will terminate upon reaching age 65.

Changes in assumptions: In the 2018 actuarial valuation, the discount rate changed from 3.13% to 2.98%. The trend assumption was updated. Assumptions for salary, mortality, withdrawal and retirement were updated based on new PSERS assumptions.

These schedules are to present the requirement to show information for ten (10) years. However, until a full ten-year trend is compiled, information for only those years for which information is available is shown.

SUPPLEMENTARY INFORMATION SECTION

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

To the Board of School Directors Methacton School District Eagleville, Pennsylvania

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Methacton School District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Methacton School District's basic financial statements, and have issued our report thereon dated November 2, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Methacton School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Methacton School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Methacton School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of School Directors Methacton School District Eagleville, Pennsylvania

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Methacton School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance in Accordance With the Uniform Guidance

To the Board of School Directors Methacton School District Eagleville, Pennsylvania

Report on Compliance for Each Major Federal Program

We have audited the Methacton School District's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of the Methacton School District's major federal programs for the year ended June 30, 2020. Methacton School District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the Methacton School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Methacton School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Methacton School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Methacton School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the Methacton School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Methacton School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Methacton School District's internal control over compliance.

A *deficiency in internal control* over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness* in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance with a type of compliance control over compliance with a type of compliance is a deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTE A - BASIS OF ACCOUNTING

The accompanying schedule of expenditures of federal awards is presented using the modified accrual basis of accounting, which is described in Note A to the School District's basic financial statements.

NOTE B - FEDERAL EXPENDITURES

The schedule of expenditures of federal awards reflects federal expenditures for all individual grants, which were active during the fiscal year.

NOTE C - DONATED FOODS

Donated foods were valued according to cost estimates provided by the U.S.D.A.

NOTE D - INDIRECT COST RATES

The School District has not elected to use the 10% de minimis indirect cost rate as allowed in the Uniform Guidance, Section 414.

A. SUMMARY OF AUDITORS' RESULTS

Financial Statements

Type of auditors' report issued: Unmodified

Internal control over financial reporting:

Significant deficiencies identified: No

Significant deficiencies identified that are considered to be material weaknesses: No

Noncompliance material to financial statements noted: No

Federal Awards

Internal control over major programs:

Significant deficiencies identified: No

Significant deficiencies identified that are considered to be material weaknesses: No

Type of auditors' report issued on compliance for major programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with the Uniform Grant Guidance: **No**

Identification of major programs:

Program	CFDA
Special Education Cluster (IDEA) Special Education Grants to States (IDEA, Part B) Preschool Grants (IDEA, Section 619)	84.027 84.173

The threshold used for distinguishing Types A and B programs was \$750,000.

Auditee qualified as a low-risk auditee: Yes

B. FINDINGS - FINANCIAL STATEMENTS AUDIT

None.

C. FINDINGS AND QUESTIONED COSTS - MAJOR FEDERAL AWARD PROGRAMS AUDIT

None.
