Book	Policy Manual
Section	600 Finances
Title	Fixed Asset Inventory
Code	622
Status	Active
Adopted	February 27, 2007
Last Revised	May 23, 2017

### **Authority**

The Board shall have the power and authority to expend district funds for the purpose of providing materials, supplies and equipment necessary to the district's educational program. Likewise, it is incumbent upon the Board to exercise its fiduciary responsibility for the custody and accountability for items purchased through the administration by the adoption of a fixed asset policy, the implementation of which is practical, yet assures accountability.[\[1\]](#)

### **Definitions**

A **fixed asset** is an item that has a cost as indicated in the attached Schedule A.

A **fixed asset equipment item** is any instrument, machine, apparatus or set of articles which meets all of the following:

1. Retains original shape, appearance and/or character with use.
2. Maintains identity through fabrication or incorporation into a different or more complex unit.
3. If damaged, or some of its parts are lost or worn out, it is generally more feasible to repair than replace.
4. Under normal conditions of use, assuming reasonable care and maintenance, can be expected to serve principle purpose for more than a year.

### **Guidelines**

#### **Level of Control**

The level of control applied to any item can be thought of as the amount of time and effort spent in keeping track of the item and the amount of information kept about the condition and whereabouts of the item. The level of control applied to an equipment item, usually falls into one of the three (3) broad categories:

#### **1. Little or No Control After Purchase**

Items are of such little value that the cost of implementing procedures to safeguard them, monitor their use, or track their location are not justifiable.

#### **2. Group Control**

Items in this category are of little individual value, but taken as a group, are valuable enough to justify the cost of providing some type of control over their safety, use, location and condition.

### 3. Individual Control

Items in this category are of sufficient value to justify applying control measures to each individual item.

It is incumbent on all principals and other building or department administrators to employ all practical means in the care and control of any district asset regardless of value.

#### Frequency of Inventory

The fixed asset inventory will be updated with regard to changes on a perpetual basis.

The fixed asset inventory may be physically reconciled on an annual basis.

#### Individual Responsibility

Each building principal or building administrator is accountable for the fixed asset inventory of his/her building.

Identification tagging will be done in accordance with adopted administrative procedures.

Changes to the inventory will be entered in a centralized manner in accordance with adopted administrative procedures.

**METHACTON SCHOOL DISTRICT**  
**Administrative Capitalization Procedures**  
**Schedule A**

Class of Asset	Useful Life	Dollar Threshold For Each Asset	Dollar Threshold By Group
<u>Depreciable Capital Assets</u>			
Depreciable capital assets are non-consumable material purchases with a life expectancy of greater than one (1) year. Depreciate individual large items or groups of like assets. The actual useful life will be based upon the specific utilization. Items will be grouped by year of acquisition.			
1. Vehicles			
School buses - 66/84 passenger	10 to 15 years	over \$5,000	not applicable
School buses - 11/48 passenger	5 to 10 years	over \$5,000	not applicable
School vehicles – under 10 passenger	3 to 8 years	over \$5,000	not applicable
Other licensed vehicles	7 to 10 years	over \$5,000	not applicable
2. Buildings	40 years	over \$25,000	not applicable
Where possible, the structure shell should be segregated from the mechanical, roofing, electrical, plumbing, cafeteria and build-ins. (These components may be replaced several times during the life of the structure shell. Segregation of these costs will ease accountability for replacing or improving the component parts and avoid pyramiding the asset valuation.)			
3. Land Improvements	20 years	over \$25,000	not applicable
Original or additional installations; land attachments with limited lives; fencing; retaining walls; irrigation systems; athletic courts, fields and tracks; private use sewer facilities and water lines; area lighting; drives and parking lots, sidewalks, curbs and gutters that are incidental to a school's property or access to the property.			
4. Building Improvements	20 to 40 years	over \$25,000	not applicable
Grouped by year of improvement; must have a significant impact and be twenty-five percent (25%) or more of the cost of the original component. For example, partitioning, lighting, flooring and routine maintenance will generally be expensed.			
5. Portable Classrooms	-	over \$10,000	not applicable
6. Leasehold Improvements	-	over \$25,000	not applicable
7. Collections/Works of Art/Historical Treasures	-	over \$10,000	not applicable
8. Technology Group	5 years	over \$2,500 each	over \$10,000
(pc's, printers, drives, network hardware); replacement of component parts such as a keyboard/mouse/cable are not to be considered equipment.			
9. Technology Group (administrative software)	5 years	over \$2,500 each	over \$10,000
10. Audio Visual Equipment	5 years	over \$2,500 each	over \$10,000
11. Athletic Equipment (examples: wrestling mats, weight machines)	5 years	over \$2,500 each	over \$10,000

Class of Asset	Useful Life	Dollar Threshold For Each Asset	Dollar Threshold By Group
12. Musical Instruments	5 years	over \$2,500 each	over \$10,000
13. Library Books	10 years	over \$2,500 each	over \$10,000
14. Maintenance and Grounds Equipment	10 years	over \$2,500 each	over \$10,000
15. Furniture and Fixtures	10 years	over \$2,500 each	over \$10,000

#### Non-Depreciable Capital Assets

1. Land	not applicable	over \$500	not applicable
2. Land Improvements (costs incurred to ready land for its intended use that does not lose its value; i.e. excavation, fill, grading, landscaping)	not applicable	over \$1,000	not applicable
3. Construction-in-Progress	not applicable	over \$25,000	not applicable
4. Easements	not applicable	over \$1,000	over \$5,000
5. Rights of Way	not applicable	over \$1,000	over \$5,000

#### Infrastructure Assets

Infrastructure assets are long-lived capital assets that normally can be preserved for a significantly greater number of years than most capital assets. Infrastructure assets are normally stationary in nature such as roads and bridges. Buildings, except those that are an ancillary part of a network of infrastructure assets, should not be considered infrastructure assets. Other examples of non-infrastructure assets that are incidental to a school's property include: fencing, retaining walls, irrigation systems, athletic courts, fields and tracks, private use sewer facilities and water lines, area lighting, drives, parking lots, sidewalks, curbs and gutters.

The determination of major infrastructure assets should be at the network or subsystem level and should be based on these criteria:

1. The cost or estimated cost of the subsystem is expected to be at least five percent (5%) of the total cost of all general capital assets reported in the first fiscal year ending after June 15, 1999.
2. The cost or estimated cost of the network is expected to be at least ten percent (10%) of the total cost of all general capital assets reported in the first fiscal year ending after June 15, 1999.
3. Reporting of non-major networks is encouraged but not required.

#### Salvage Value

In setting up the inventory records of capitalized assets, management should consider, with the local auditor, the use of salvage value on those capitalized assets that have a resale value at the end of their useful life.

<u>Val Number</u>	<u>Description</u>	<u>Justification</u>
42420	<p>Expenditure Detail: Total current year 2700-513 expenditure varies from prior year by 10%.
